## NAVAL APPROPRIATON BILL CUT \$120,000,000

Measure, Reported Today to House, Carries No Provision for

New Construction.

As reported to the House today the 1920 Navy appropriation bill carries a total of \$601,500,000, a decrease of \$375,000,000 from the estimates submitted by Secretary Daniels and \$120,000,000 less than the amount carried in the bill as it passed the House last session. One of the principal items is an appropriation of \$133,-000,000 for continued construction of the 1916 shipbuilding program. No new construction is authorized.

Changes in Enlisted Strength.

The bill provides for a temporary enlisted strength of 241,000 men until October 1; 191,000 to January 1, and 170,000 for the remainder of the fiscal year, with a generous increase in pay of enlisted men from \$17.50 to \$32.50 a month. The authorized number of enlisted men in the Marine Corps is temporarily increased from 17,400 to 27,400 to enable a force of 10,000 to be retained for duty in Europe.

Amount for Aviation.

The appropriation for aviation was reduced from \$45,000,000 to \$15,000,000. The committee explained that this amount was intended only for the maintenance of the present naval air service until a definite policy for future expansion could be determined. future expansion could be deter-The measure will be considered by the House tomorrow.

**NEW PEAS, \$3 A BARREL, FEATURE OF THE MARKET** 

New peas at \$3 a barrel, wholesale, were the outstanding feature of today's marketing guide for Washington consumers, issued by the bureau of markets, Department of Agriculture.

Ten days ago, the report says, the same produce sold at \$10 a barrel. Retailers, according to the report, are asking from 10 to 15 cents a quarter peck for them.

Strawberries still are abundant in the local markets, according to the report, as are lettuce, radishes, white potatoes, cucumbers, cabbage, green beans, tomatoes and lemons. The report says trout of excellent quality are plentiful on the local market, at prices ranging from 6 to 15 cents a pound, according to size and to whether or not the fish are cleaned.

Normal supplies are on hand of cherries, asparagus, kale, onions, oranges, bananas, spring onions, spinach and raspberries; while sweet potatoes, peppers, apples, celery, rhubarb, new potatoes, grapefruit and peaches are scarce.
